

How to Tell You Are Not Ready for a Parrot.....

- * Big beaks scare you.
- * Medium-sized beaks on animals with big attitudes scare you.
- * Small beaks on animals with HUGE attitudes scare you.
- * You are not prepared to have your household run by a bird.
- * You need to be the center of attention, ever.
- * You do not like to chop vegetables and then pick them up off the floor.
- * You will not spend half of your free time playing with a bird and the other half shopping for toys that they can play with when you're out working so you can afford more toys and vegetables.
- * You have children that can't understand the phrase, "Keep your hands out of the birdie's cage."
- * You may disregard the above if you have excellent health insurance.
- * You don't have a really good sense of humor, because parrots do.
- * You are not prepared to have a lifelong, exhausting, exasperating, and absolutely spectacular experience.
