

The CDC, WHO, and FDA have released scientific data detailing how COVID-19 spreads between animals and humans. It's now reported animals have contracted and died from COVID-19.

You can access the COVID-19 Animal Health Safety resource here: [petnewsdaily.com/covid-19-and-pet-health-safety/](https://petnewsdaily.com/covid-19-and-pet-health-safety/)

It contains many helpful tips including:

- In public with your pet, avoid contact with other pets, people, and stray animals.
- Keep your pets away from crowded pet parks and other crowded public areas.
- Do not face mask your pet.
- Do not use alcohol or hand sanitizer to sanitize your pets.
- And much more...
